List of compounds effectively used for the treatment of COVID-19

The ongoing COVID 19 pandemic has catalyzed the testing of drugs for the treatment of corona virus across the biotech industry, both by pharmaceutical companies and research organizations. As we all are facing global threat of Covid 19, Clearsynth is making efforts to help their customers by supplying products they require for their research. We are pleased to offer more new potential tool compounds which will help in your research. Please contact us for the more details.

Yes, I need more info !

NOW AVAILABLE

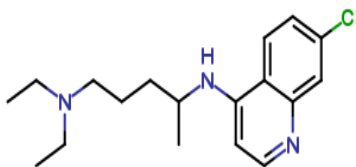

Azithromycin

API Standard

CAS Number : 83905-01-5
CAT Number : CS-O-00853
