## PRECISION *DEUTERATED REAGENTS*

Engineered for Reliable Research & Advanced Analytics.

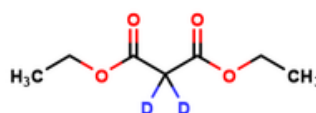

Elevate your research with our premium selection of isotopically labeled organic compounds, featuring high-purity deuterated reagents. These stable isotope standards enable precise metabolic tracking, advanced NMR studies, and enhanced drug development without altering chemical or biological properties.

Purity >97% ;  
Isotopic purity >98%

**DL-Alanine-d3**  
CS-C-00242

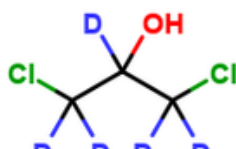

**Diethyl malonate-2,2-d2**  
CS-R-00454

**p-Cresol-2,3,5,6-d4 OD**  
CS-C-00841

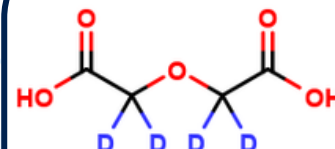

**1,3-Dichloroacetone-d4**  
CS-T-52556

**1,3-Dichloro-2-propanol-d5**  
CS-T-52660

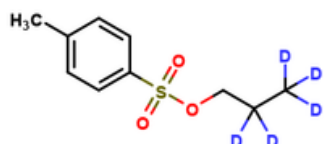

**Propionic-d5 acid**  
CS-R-00642

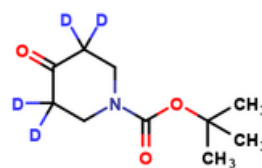

**Diglycolic acid-d4**  
CS-C-01908

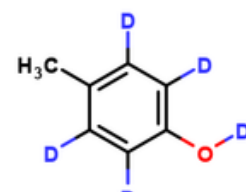

**Glycine-2,2-d2**  
CS-T-55421

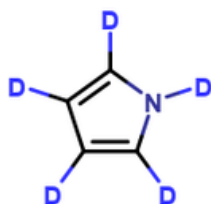

**Propyl Tosylate-d5**  
CS-O-60493

**4-Pyridone-3,3,5,5-d4-N-t-Boc**  
CS-C-00687

**p-Cresol-2,3,5,6-d4**  
CS-C-00841

**Pyrrole-d5**  
CS-C-00889

**Epichlorohydrin-d5**  
CS-T-54063
