

Clearsynth

High Purity Reference Standards

For Pesticide Testing and Analysis

ISO Accredited Standards
Comprehensive CoA

Quality Commitment:

ISO 14001:2015 | ISO 9001:2015 | ISO 45001:2018 |
ISO/IEC 17025:2017 | ISO 17034:2016

About Us

Clearsynth is a global leader in Reference Materials for pesticides, antibiotics, mycotoxins, and other critical food safety and environmental health adulterants. Using advanced technology and a research-driven approach, we specialize in synthesizing complex organic molecules, stable isotope-labelled compounds, impurities, and metabolites, essential for regulatory compliance, quality control, and scientific research.

With an extensive portfolio of over 325,000 products across pharmaceuticals, food safety, environmental testing, and clinical research, Our reference materials for pesticides, antibiotics, and mycotoxins are critical for ensuring food safety and compliance with global health standards.

Our state-of-the-art R&D center in Hyderabad, spanning 50,000 sq. ft., is the epicenter of innovation and precision. Equipped with advanced analytical tools and staffed by a team of expert scientists, we ensure that every reference standard we produce meets the highest levels of accuracy and reliability.

Clearsynth is the trusted partner for reference materials in toxicology and food safety, committed to advancing scientific discovery and providing solutions that set the global standard for quality and precision

Meet Your Research & Testing Needs

- Pesticide residue reference standards
- Heavy metal and contaminants
- PFAS - Per- and Polyfluoroalkyl Substances
- Antibiotics residue
- Mycotoxins
- Nutritional components
- Additives and Preservatives
- Fatty acids and lipids profile
- Volatile Organic Compounds (VOC)
- Dioxins & Furans
- Brominated Flame Retardants (BFRs)
- Phthalates and their Derivatives
- Endocrine Disruptors (E.g., Bisphenol A, Triclosan, Atrazine)
- Azo Dyes and their By-products
- Stable Isotopes
- Metabolites & Peptides
- Water and environmental test Mix
